Before you invest, you may want to review the Fund's Prospectus and Statement of Additional Information, which contain more information about the Fund and its risks. You can find the Fund's Prospectus, Statement of Additional Information and other information about the Fund online at <http://investments.miraeasset.us>. You can also get this information at no cost by calling the Fund's transfer agent at 1-888-335-3417. The Fund's current Prospectus dated August 26, 2016, and Statement of Additional Information dated August 26, 2016 are incorporated by reference into this summary prospectus.

Mirae Asset Discovery Funds
Asia Fund
Emerging Markets Fund

**Supplement dated February 13, 2017 to the Prospectus and Statement of Additional Information,
each dated August 26, 2016, the Summary Prospectus for the Asia Fund dated August 26, 2016
and the Summary Prospectus for the Emerging Markets Fund dated December 6, 2016**

This Supplement is provided to update, and should be read in conjunction with, the information provided in the Prospectus and Statement of Additional Information (“SAI”) of Mirae Asset Discovery Funds (the “Trust”) dated August 26, 2016, the Summary Prospectus for the Asia Fund dated August 26, 2016 and the Summary Prospectus for the Emerging Markets Fund dated December 6, 2016. This Supplement relates only to the Asia Fund and the Emerging Markets Fund (each a “Fund” and together the “Funds”).

On December 29, 2016, a supplement to the Trust’s Prospectus and SAI dated August 26, 2016, as well as to the Summary Prospectus for the Asia Fund dated August 26, 2016 and the Summary Prospectus for the Emerging Markets Fund dated December 6, 2016 was filed with SEC disclosing that the Board of Trustees of the Trust (the “Board”) had approved a proposal to liquidate the Funds. The Funds were scheduled to liquidate on or about February 28, 2017.

On February 10, 2017, after further consideration and the recommendation of Mirae Asset Global Investments (USA) LLC., the investment adviser to the Funds, the Board approved a proposal to forego the liquidation of the Funds and continue their operations.

If you have any additional questions, please contact your financial adviser or intermediary.

INVESTORS SHOULD RETAIN THIS SUPPLEMENT FOR FURTHER REFERENCE

Mirae Asset Discovery Funds

Asia Fund
Emerging Markets Fund

Supplement dated December 29, 2016 to the Prospectus and Statement of Additional Information, each dated August 26, 2016, the Summary Prospectus for the Asia Fund dated August 26, 2016 and the Summary Prospectus for the Emerging Markets Fund dated December 6, 2016

This Supplement is provided to update, and should be read in conjunction with, the information provided in the Prospectus and Statement of Additional Information of Mirae Asset Discovery Funds (the “Trust”) dated August 26, 2016, the Summary Prospectus for the Asia Fund dated August 26, 2016 and the Summary Prospectus for the Emerging Markets Fund dated December 6, 2016. This Supplement relates only to the Asia Fund and the Emerging Markets Fund (each a “Fund” and together the “Funds”).

On December 20, 2016, the Board of Trustees of Trust approved a proposal to liquidate the Funds effective on or about February 28, 2017 (the “Liquidation Date”). As soon as practicable, all holdings in each Fund’s portfolio will be liquidated, and the proceeds will be invested in money market investments or held in cash. During this time, each Fund may not achieve its investment objective. On or about the Liquidation Date, all of the assets of each Fund will be liquidated completely, each investor’s shares will be redeemed at the net asset value per share and each Fund will then be terminated. Absent other instructions, the cash proceeds will be distributed by mailing a check to each investor of record at such investor’s address of record.

For federal income tax purposes, the tax treatment to investors of the receipt of the liquidating distribution on the Liquidation Date will be the same as would be the tax treatment of a redemption of shares on that date. You may also be subject to state, local or foreign taxes on redemptions or liquidations of Fund shares. The foregoing is only a summary of certain tax considerations under current law, which may change in the future. You should consult your tax adviser for information regarding all tax consequences applicable to your investment in the Fund.

Investment Objective

The investment objective of Emerging Markets Fund (the "Fund") is to achieve long-term capital growth.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund, a series of Mirae Asset Discovery Funds (the "Trust"). You may qualify for sales charge discounts if you and your family invest, or agree to invest, at least \$50,000 in the Trust. More information about these and other discounts is available from your financial professional and in the "Description of the Share Classes" section on page 41 of the Fund's Prospectus and in the "Purchase and Redemption of Shares" section beginning on page 42 of the Fund's statement of additional information ("SAI").

Shareholder Fees *(fees paid directly from your investment)*

	Class A	Class C	Class I
Maximum Sales Charge (Load) imposed on purchases (as a percentage of the offering price)	5.75%	None	None
Maximum Deferred Sales Charge (Load) for redemptions within one year of purchase (as a percentage of the original cost or redemption proceeds, whichever is less) (a 1.00% deferred sales charge may apply on certain redemptions of Class A Shares made within 18 months of purchase if purchased without an initial sales charge)	None	1.00%	None

Annual Fund Operating Expenses *(expenses that you pay each year as a percentage of the value of your investment)*

	Class A	Class C	Class I
Management Fees	1.05%	1.05%	1.05%
Distribution and Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses	4.85%	4.25%	2.54%
Total Annual Fund Operating Expenses	6.15%	6.30%	3.59%
Fee Waiver and Expense Reimbursement*†	(4.65)%	(4.05)%	(2.34)%
Total Annual Fund Operating Expenses After Fee Waiver and Reimbursement*†	1.50%	2.25%	1.25%

* The Fund's investment manager, Mirae Asset Global Investments (USA) LLC ("Mirae Asset USA" or the "Investment Manager"), has contractually agreed to waive its management fee and, if necessary, to reimburse the Fund so that total operating expenses (excluding interest expense, taxes, brokerage commissions and certain other Fund expenses) of the Fund do not exceed 1.50% (for Class A Shares), 2.25% (for Class C Shares) and 1.25% (for Class I Shares) of average daily net assets through August 31, 2017. Each share class may have to repay Mirae Asset USA some of these amounts waived or reimbursed within three years if total operating expenses fall below the expense cap described above. In no event, however, will payment of such reimbursement cause the Fund to pay fees or expenses in an amount exceeding the expense limit applicable at the time of such reimbursement to Mirae Asset USA to that share class under the agreement. The agreement may be terminated prior to August 31, 2017 upon 90 days' prior written notice by a majority of the non-interested trustees of the Trust or by a majority of the outstanding voting securities of the Fund. More information about the Fund's fee waiver and expense reimbursement agreement is available in the "Management of the Funds" section beginning on page 37 of the Fund's Prospectus.

† The Fee Waiver and Expense Reimbursement and the Total Annual Fund Operating Expenses After Fee Waiver and Reimbursement have been restated and differ from the ratios of net expenses to average net assets given in the Fund's annual report, which does not reflect the current expenses of the Fund.

Example:

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Class A	\$ 719	\$ 1,905	\$ 3,064	\$ 5,847
Class C	\$ 328	\$ 1,506	\$ 2,751	\$ 5,724
Class I	\$ 127	\$ 883	\$ 1,660	\$ 3,700

You would pay the following expenses if you did not redeem your shares:

	1 Year	3 Years	5 Years	10 Years
Class A	\$ 719	\$ 1,905	\$ 3,064	\$ 5,847
Class C	\$ 228	\$ 1,506	\$ 2,751	\$ 5,724
Class I	\$ 127	\$ 883	\$ 1,660	\$ 3,700

Portfolio Turnover:

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when you hold Fund shares in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 105% of the average value of its portfolio.

Principal Investment Strategies of the Fund

Under normal circumstances, the Fund seeks to achieve its investment objective by investing at least 80% of its net assets, plus any borrowings for investment purposes, measured at the time of purchase, in equity securities (i) of issuers in emerging markets or (ii) that are tied economically to emerging markets, provided that, in either case, the issuers of any such securities are deemed by the Investment Manager to be Sector Leaders. Equity securities consist of common stock and related securities, such as preferred stock and depository receipts.

The Investment Manager defines "Sector Leaders" to be those issuers that are highly ranked, or those that the Investment Manager expects to be highly ranked in the future, in terms of market share or market capitalization within their respective country, region, industry, products produced or services offered, as applicable.

The Investment Manager generally considers "highly ranked" to mean first or second. In determining whether an issuer is, or is likely to be, highly ranked, the Investment Manager considers, among other things: (i) issuers with a sustainable long-term business model or strategy that the Investment Manager considers to be a competitive advantage; (ii) issuers with businesses that the Investment Manager expects to benefit from long-term economic trends; and (iii) issuers with management practices and philosophies that the Investment Manager considers beneficial to shareholder value.

The Investment Manager considers an emerging market country to include any country that is: (i) generally recognized to be an emerging market country by the international financial community; (ii) classified by the United Nations as a developing country; or (iii) included in the MSCI Emerging Markets Index. The Investment Manager determines that an investment is tied economically to an emerging market if such investment satisfies one or more of the following conditions: (i) the issuer's primary trading market is in an emerging market; (ii) the issuer is organized under the laws of, derives at least 50% of its revenue from, or has at least 50% of its assets in, emerging markets; (iii) the investment is included in an index representative of emerging markets; and (iv) the investment is exposed to the economic risks and returns of emerging markets.

For market capitalization determination, the Investment Manager considers, on a country-by-country basis, the rankings published by generally recognized classification systems, such as the MSCI Global Industry Classification System ("MSCI GICS"). The Investment Manager may invest in issuers across all industry sectors, as defined by MSCI GICS.

For market share determination, the Investment Manager generally uses its proprietary analysis of an issuer's competitive positioning within its respective industry on a province, state, country or regional basis. The Investment Manager also may consider product segments or types of services provided by an issuer that are outside of the issuer's generally recognized industry classification. The Investment Manager's proprietary analysis may include consideration of third-party data on market share.

The Investment Manager buys and sells securities based on its judgment about issuers, the prices of the securities and other economic factors. The Fund may engage in active and frequent trading of portfolio securities to achieve its principal investment strategies. The Fund may invest in securities of any market capitalization. Although the Fund may invest more than 25% of its assets in issuers located in a single country or in a limited number of countries, in no event will the Fund be invested in fewer than three countries at any given time. Under normal market conditions, the Fund intends to invest substantially all of its net assets in non-U.S. companies.

Principal Risks of Investment in the Fund

The Fund cannot guarantee that it will achieve its investment objective. As with all investments, there are certain risks of investing in the Fund, and you could lose money on an investment in the Fund. Principal risks related to an investment in the Fund are summarized below.

Asset Allocation Risk – The Fund's ability to achieve its investment objective will depend, in part, on the Investment Manager's ability to select the best allocation of assets across the various emerging market countries. There is a risk that the Investment Manager's evaluations and assumptions may be incorrect in view of actual market conditions.

Depository Receipts Risk – There may be less material information available regarding issuers of unsponsored depository receipts and, therefore, there may not be a correlation between such information and the market value of the depository receipts. Depository receipts are generally subject to the same risks as the related foreign securities.

Foreign Securities Risk – Foreign investments may be subject to different and, in some cases, less stringent regulatory and disclosure standards than U.S. investments. Also, political concerns, fluctuations in foreign currencies and differences in taxation, trading, settlement, custodial and other operational practices may result in foreign investments being more volatile and less liquid than U.S. investments. Foreign regulatory and fiscal policies may affect the ability to trade securities across markets. Foreign markets also may differ widely in trading and execution capabilities, liquidity and expenses, including brokerage and transaction costs. Brokerage and transaction costs are generally higher for foreign securities than for U.S. investments. Foreign investments typically are issued and traded in foreign currencies. As a result, their values may be affected significantly by changes in exchange rates between foreign currencies and the U.S. dollar.

Emerging Markets Risk – The risks of foreign investments are typically greater in emerging market countries. For example, political and economic structures in these countries may be changing rapidly, which can cause instability and greater risk of loss. These countries are also more likely to experience higher levels of inflation, deflation or currency devaluation, which could hurt their economies and securities markets. For these and other reasons, investments in emerging markets are often considered speculative.

Equity Securities Risk; Stock Market Volatility – Equity securities include common and preferred stocks. Stock markets are volatile. The value of equity securities is affected by changes in a company's financial condition and overall market and economic conditions. Preferred stock may be subject to optional or mandatory redemption provisions.

Geographic Concentration Risk – The Fund may invest a substantial amount of its assets (*i.e.*, more than 25% of its assets) in issuers located in a single country or a limited number of countries. Social, political and economic conditions and changes in regulatory, tax or economic policy in a country or region could affect significantly the Fund's performance. For example, as of the Fund's most recently ended fiscal year, the Fund was substantially invested in China and Hong Kong. See "Risks of Investing in China" below.

High Portfolio Turnover Risk – The Fund may engage in active and frequent trading to achieve its principal investment objectives. This may result in the realization and distribution to shareholders of higher capital gains as compared to a fund with less active trading policies, which would increase an investor's tax liability unless shares are held through a tax deferred or exempt vehicle. Frequent trading also increases transaction costs, which could detract from the Fund's performance.

Inflation Risk – Inflation risk is the risk that the present value of assets or income from investments will be less in the future as inflation decreases the value of money. The present value of the Fund's assets and distributions can decline as inflation increases.

Large-Cap Securities Risk – Securities issued by large-cap companies tend to be less volatile than securities issued by smaller companies. However, larger companies may not be able to attain the high growth rates of successful smaller companies, especially during strong economic periods, and may be unable to respond as quickly to competitive challenges.

Legal and Regulatory Risk – The regulatory environment for funds is evolving, and legal, tax and regulatory changes could occur that may adversely affect the Fund.

Risks of Investing in China – Investments in China and Hong Kong are subject to special risks. The Chinese government continues to influence heavily the course of the Chinese markets. Chinese markets generally continue to experience inefficiency, volatility and pricing anomalies that may be connected to governmental influence, a lack of publicly available information and/or political and social instability. China's aging infrastructure, growing income inequality and worsening environmental conditions also are factors that may affect the Chinese economy. In addition, any attempt by China to exert control over Hong Kong's economic, political or legal structures or its existing social policy, could negatively affect investor confidence in Hong Kong, thereby negatively affecting markets and business performance and adversely affecting the Fund's investments.

Selection Risk – The securities selected by the Fund may underperform the market or other securities selected by other funds.

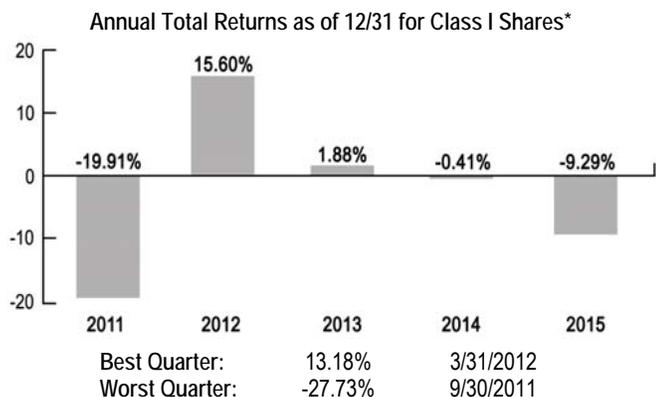

Small- and Mid-Cap Securities Risk – Securities of small- and mid-sized companies may be more volatile and subject to greater risk than securities of larger companies. Small- and mid-cap companies may have limited financial resources, product lines and markets, and their securities may trade less frequently and in more limited volumes than the securities of larger companies, which could lead to higher transaction costs.

You should consider an investment in the Fund as a long-term investment. The Fund's returns will fluctuate over long and short periods.

Performance Information

The bar chart and table below provide an indication of the risks of an investment in the Fund. The bar chart shows how the Fund's performance has varied from year to year. The table shows how the Fund's average annual total returns (before and after taxes) compare with those of the MSCI Emerging Markets Index. If the Investment Manager had not agreed to waive or reimburse certain Fund expenses during this period, the Fund's returns would have been less than those shown. Past performance, including before- and after-tax returns, is not necessarily an indication of how the Fund will perform in the future. Updated information on the Fund's performance can be found on the Trust's website at <http://investments.miraeeasset.us> or by calling 1-888-335-3417.

The bar chart below shows the Fund's annual returns for Class I Shares. The returns for Class A Shares and Class C Shares will be lower than Class I Shares' returns shown in the bar chart because the expenses of the classes differ.

* The performance information shown above is based on a calendar year. The Class I Shares year-to-date return as of the most recent calendar quarter ended June 30, 2016 was 1.71%.

The table below shows returns on a before-tax and after-tax basis. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns shown in the table below are for Class I Shares of the Fund and after-tax returns for Class A and Class C Shares may vary. The table includes all applicable fees and sales charges. The table further compares the Fund's performance over time to that of the MSCI Emerging Markets Index, a broad-based securities index. For additional information regarding this index, see "Description of Fund Benchmarks" starting on page 36 of the Fund's Prospectus.

Average Annual Total Returns (for the periods ended December 31, 2015)	Since Inception (September 24, 2010)		
	1 Year	5 Years	
Class I			
Return Before Taxes	-9.29%	-3.15%	-1.53%
Return After Taxes on Distributions	-9.29%	-3.34%	-1.73%
Return After Taxes on Distributions and Sale of Fund Shares	-5.26%	-2.36%	-1.15%
Class A Returns Before Taxes	-14.72%	-4.52%	-2.86%
Class C Returns Before Taxes	-11.12%	-4.12%	-2.52%
MSCI Emerging Markets Index (reflects no deduction for fees, expenses or taxes)	-14.60%	-4.47%	-2.56%

Management

Investment Manager and Sub-Manager

Mirae Asset Global Investments (USA) LLC (previously defined as "Mirae Asset USA" or the "Investment Manager") is the investment manager for the Fund. Mirae Asset USA has retained Mirae Asset Global Investments (Hong Kong) Ltd. ("Mirae Asset Hong Kong") to act as sub-manager to portions of the Fund's portfolio. The term "Investment Manager" may also refer to the Fund's sub-manager, as applicable.

Portfolio Managers

William Malcolm Dorson, Portfolio Manager/Senior Investment Analyst for the Investment Manager, and Rahul Chadha, Co-Chief Investment Officer of Mirae Asset Hong Kong, are jointly and primarily responsible for the day-to-day management of the Fund. Mr. Dorson has managed the Fund since December 2016. Mr. Chadha has managed the Fund since its inception.

Purchase and Sale of Fund Shares

You may purchase or redeem shares of the Fund on days when the New York Stock Exchange is open for regular trading at the Fund's next determined net asset value after the transfer agent receives your request in good order: by mail (Mirae Asset Discovery Funds, P.O. Box 183165, Columbus, Ohio 43218-3165); by telephone (1-888-335-3417); or through your financial intermediary. Shares may be purchased, and redemption proceeds received, by electronic bank transfer, by check, or by wire. Investment minimums for Class A and Class C Shares are generally as set forth in the table below.

Type of Account	Minimum Initial Investment	Minimum Subsequent Investment
Regular	\$ 2,000	\$ 100
IRA and Roth IRA	\$ 500	\$ 50
Coverdell Education Savings Account (Educational IRA)	\$ 500	\$ 50
Systematic Investment Plan	\$ 500	\$ 50

The minimum initial investment for Class I Shares of the Fund is \$250,000, subject to certain exceptions. The minimum subsequent investment for Class I Shares of the Fund is \$25,000. The Fund may reduce or waive the minimums set forth above in its discretion.

Tax Information

Dividends and capital gain distributions you receive from the Fund may be subject to federal income taxes and may be taxed as ordinary income or capital gains, unless you are a tax-exempt investor or are investing through a retirement plan, in which case you may be subject to federal income tax upon withdrawal from such tax deferred arrangements. In addition, dividends and capital gain distributions you receive from the Fund also may be subject to state and local taxes.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
